

# CAPILLARY TREATMENT

## H-DETOX

*Rebalances, strengthens and repairs the hair*

The H-Detox Prime line has high capillary treatment power, reducing root oiliness and moisturizing the ends of the hair. Restores hair damaged by chemical, physical and mechanical processes, and prepares them for a new process. It contains **marine bio-actives**, and natural actives extracted from **cucumber, apple and lemon**, which all assist in the detoxification process and recovery of the hair, while also providing brightness, softness, flexibility and protection against UV rays.

**Note: This treatment should be done every 15 days and if necessary, for a more intense detoxification, it should be performed weekly.**
